The PRINCE2 Management Products Map

By Frank Turley, MgmtPlaza

Introduction:

- This document is based on the PRINCE2 Process Model Diagram ([Link](#))
- It is useful to compare both diagrams with each other

This PRINCE2 Management Product Map shows:

- When management products are created in a project (in which process)
- When management products are updated (Logs, Registers, BC, PP)
- Who creates these documents (most are created & updated by the PM)
- The Inputs & Outputs for each process

Theme Information

- This diagram shows when the main Theme related documents are created & updated
- **Business Case:** Outline BC, Business Case updated in the SB process
- **Risk:** Risk Mgmt Strategy, Risk Register
- **Quality:** Quality Mgmt Strategy, Quality Register (update from the MP process)
- **Plans:** IS Plan, Project Plan, Stage Plan and Project Plan is updated
- etc...
